Short Description

SHIFT/BRAKE LEVER PAIR

Description

The Shimano ST-EF51 Shifter/Brake Lever Combo is designed to make shifting and braking a seamless process for easier biking. Compatible with 7-speed cassettes/freewheels and triple cranks and with V-brake systems, this combination pair replace separate brake lever and gear shift systems. Designed for ease of use, the unit has an easy-to-read gear indicator.

Trigger type handle, make it easier for variable speed operation. High flexibility, A visual pointer display gear, so gear change be clear at a glance.

Installation

1. Suitable for 22mm(diameter)handle. With an Allen wrench installation.

2. Replacement of the interior wiring.
3. Set the handle at the top position.
4. Unscrew the screw remove the protection cover.
5. Pull the interior wiring, installing a new interior wiring.
