LOUIS GARNEAU SOLUTION

Brand: Louis Garneau
Product Code: 1032323-222
Availability: In Stock

Price: \$179.99

Short Description

BLACK/RED

Description

With the Solution MVT jacket, there's no reason to let the cold keep you from your training. MVT stands for Moisture Vapor Transfer: the jacket is designed to let out moisture because when you're training in winter conditions, staying dry is key. Gravity DP is an ultralight, breathable and windproof weave with a ripstop construction that gives the fabric lightness and resistance. Strategically placed Polartec® Alpha® insulation provides warmth without compromising the jacket's breathability, and a Drytex® Mesh lining helps improve heat retention as well as breathability and moisture wicking. The Solution MVT jacket also features stretchable and articulated sections for maximum flexibility, ease of movement and a thoroughly great fit.

- Strategically Placed Polartec® Alpha® Insulation: Provides Warmth During Sports Activities
- Drytex® Mesh Lining: Provides Warmth And Thermoregulation
- Front Reversed Zip With Inner Flap, Zip Garage And Built-In Outer Flap: Increases Protection Against Wind And Cold
- 2 Front Pockets With Reversed Zip: Offer Safe Storage
- 1 Back Pocket With Reversed Zip: Fits Phone, Mp3 Player, ?Or Gels
- Multimedia Pocket: Allows For Headphone Wires To Be Channeled Inside The Garment
- Articulated Elbows: Allow For Flexibility And Ease Of Movement
- Stretch Trim At Wrists: Provides A Good Fit
- Adjustable Elastic Drawstring At Hem: Offers A Custom Fit And Protects Against The Elements
- Stretch Anatomic Panel: Increases The Range Of Motion, Provides Flexibility And Ventilation
