Short Description

FLUID TRAINER

Description

- The most reliable fluid trainer available just got a whole bunch smarter!
- All the same great features of the Road Machine 2.0 trainer with the added benefit of having the Kinetic inRide sensor pre-installed on the trainer
- inRide sensor updated to include dual band technology with added ANT+ protocol
- Quiet, smooth, progressive fluid resistance
- Stable, durable, steel frame
- Fits 29" mountain bikes
- Compatible with wider axles & Kinetic Traxles
- Pairs with Apple & Android devices using Bluetooth Smart and eliminating

the need for additional dongles

- Built-in guided workouts
- Programmable Power and HR zones
- Extensive workout graphing
- Automated warmup and calibration
- Tracks individual ride history and lifetime totals
- Measures Power output, HR, cadence, calories burned, speed, distance and more than 30 other workout data metrics
- Share workout results to Facebook and Twitter
