### Short Description

BAR TAPE

### Description

The S-Wrap HD Handlebar Tape sets the mark for high performance comfort. It features a diamond texture for incredible grip, as well as a gel backing that pulls double duty. By this, we mean that the gel adds a bit more cushion to the hands, while also helping to absorb road vibration. It also makes re-installation on other set of bars a breeze.

- High grip diamond texture provides ample grip and control at the bars.
- Gel backing for easy re-wrap.
- Heavy duty and long lasting.
- Bar end plugs included.
